Discourse analysis studies section three discusses the concept and the significance of text as the basis of discourse analysis and translation. Section four is a concluding chapter of this study with some suggestions that may be helpful in solving the students problems in PDF language for specific purposes. LSP refers to a distinctive approach to language education that focuses on the particular linguistic features discourse practices and communicative skills. Discourse analysis is sometimes defined as the analysis of language beyond the sentence. This contrasts with types of analysis more typical of modern linguistics which are chiefly concerned with the study of grammar. The study of smaller bits of language such as sounds, phonetics, and phonology parts of words, morphology, meaning, semantics, and the order of words in sentences, syntax, textual genres on discourse analysis and translation. The paper revisits the concepts of translation model, translation analysis, and translation strategy from an integrated perspective. Translation modeling is reconsidered in terms of a paradigm shift and a distinction between a process-oriented descriptive model and an action-oriented prescriptive model. Discourse is the use of language in text and context. What is genre? Genre in linguistics refers to the type and structure of language typically used for a particular purpose in a particular context. What is the relationship between discourse and genre? Discourse analysis is genre analysis. Discourse analysis (DA) is a discipline which concerns the study of the relationship between language and the context in which it is used. Other words, discourse analysis is a branch of applied linguistics which investigates the study of language in use. McCarthy explains 1978 p5 this field of study grew out of work in different disciplines in the 1960s and 1970s including, ideology and translation. A critical discourse analysis approach towards the representation of political news in translation recently the impact of ideology of the powerful agents namely political parties, news agencies, and even the translators on the translation has been considered significantly among the translation scholars. Discourse analysis and translation (DA) is a discipline which concerns the study of the relationship between language and the context in which it is used.
